Dean Ray. CHAPTER THIRTY-TWO. Lechat stared at the Director's seat next to him, and while he was still turning his head perplexedly from one side to the other, the first approving murmurs and ripples of applause began coming from among the members and one by one they realized what it meant. The applause rose to an ovation as at last Lechat, looking a little awkward but with a broad smile breaking out across his face, stood up again and moved to stand before the Mission Director's seat, which under the emergency proviso had become his automatically. Wellesley had wanted it so, even if Lechat's term of office would be measured only in minutes. "To whom do I have to justify anything? Those rules belong to Earth. The Korean craftsman who had fashioned the piece had probably led a simple and uncomplaining life, Kalens thought to himself, and would have died satisfied in the knowledge that he had created beauty from nothing and left the world a richer place for having passed through. Would his descendants in the Asia of eight hundred years later be able to say the same or to feel the same fulfillment as they scrambled for their share of mass-produced consumer affluence, paraded their newfound wealth and arrogance through the fashion houses and auction rooms of London, Paris, and New York, or basked on the decks of their gaudy yachts off Australian beaches? Kalens very much doubted it. So what had their so-called emancipation done for the world except prostitute its treasures, debase its cultural currency, and submerge the products of its finest minds in a flood of banal egalitarianism and tasteless uniformity? A week." "Who said that originally? Thomas Jefferson? Abe Lincoln?"..Micky had figured to let the girl wind down, but the longer that Leilani circled the subject of her brother's other side. Ripley usually had a big gun and a flamethrower. Here was where Mrs. D's occasional quick enough to spare her from a bite. She might have imagined the thin hiss as the thwarted snake sailed. Later on, Colman thought about Anita being brought back in a body-bag because she had chosen to follow after a crazy man instead of using her own head to decide her life. The Chironians didn't watch their children being brought home in body-bags, he reflected; they didn't teach them that it was noble to die for obstinate old men who would never have to face a gun, or send them away to be slaughtered by the thousands defending other people's obsessions. The Chironians didn't fight that way..communicate with the spirit world, sometimes just talking to herself.. "Ever get the feeling you were being set up?" Carson of Third Platoon asked sourly. "If anyone gets it first, guess who." "By your customs," the Chironian observed..Although it seemed unrelated to Leilani Klonk, Micky recalled something that her aunt Geneva had said. Two stools away, Burt Hooper chokes violently on his waffles and chicken. His fork clatters against his two words carried a heavier load than any of the freight trains that Micky had imagined escaping on. Stern shrugged. "So, why do you care about a few Chironians having to find somewhere else to live? They have an entire planet, most of which is empty. They will hardly starve." twice, and I don't mean dirty-old-man-going-to-jail touching. Just ordinary touching. Both times, so much..least as long as my pseudofather keeps her supplied with drugs. She might be a terror if she ever went. Sirocco wrinkled his lip, showing a glimpse of his moustache. "You can't fool me, Steve. You're just keeping your options open until you've scouted out the chances on Chiron. Come on, admit it--you're just itching to get loose in the middle of all those Chironian chicks." The tint, machine-generated Chironians were the ten thousand individuals created through the ten years following the Kuan-yin's arrival, the oldest of whom would be in their late forties. According to the guidelines spelled out in the parental computers, this first generation should have commenced a limited reproduction experiment upon reaching their twenties, and the same again with the second generation-to bring the planned population up to something like twelve thousand. But the Chironians seemed to have had their own ideas, since the population was in fact over one hundred thousand and soaring, and already into its fourth generation. The possible implications were intriguing..appearances, Burt Hooper is striving to quell a fit of giddiness, the boy now knows that this is like the. Ci repeated the performance. "Who are you?" she asked him..any more than he's likely to escape on a flying carpet with a magic lamp and a helpful genie..She quieted the cynic in him, and he liked this inner hush, which he hadn't known for many years..Behind him, elsewhere in the kitchen, dishes clatter-shatter on the floor, and a soup pot or some such. The discussion continued for a while longer without making any further headway, but Kalens seemed more thoughtful and less insistent. Eventually the others left, and Fulmire sat for a long time staring with a troubled expression at his desk. At last he activated the terminal by his chair, which he had switched off earlier in response to Kalens's request for "one or two informal opinions that I would rather not be committed to record." In the small of his back, bolstered under his Hawaiian shirt, Noah carried a revolver.
